RPL and Credit Transfer are available for students to access prior to enrolment.</p> <p>The recognition of prior learning (RPL) process conducted by us is an assessment process, which provides acknowledgement of all skills and knowledge gained through the life experiences, work experience, previous training and formal education of applicants.</p> <p>Recognition of Prior Learning (RPL) is an assessment process that assesses a non-formal and informal learning to determine the extent to which that individual has achieved the required learning outcomes, competency outcomes, or standards for entry to, and/or partial or total completion of, a qualification</p> <ul style="list-style-type: none"> • RPL must be offered on application for all of the VET Courses • A formal application for RPL must be submitted using the Application for RPL and Credit Transfer Form • The evidence provided for RPL must address the currency of competencies being assessed. • All applications must be submitted prior to the course commencement date and assessments finalised within 14 days from commencement date <p>Credit Transfer (CT) assesses the initial course or subject that the individual is using to claim access to, or the award of credit in, the destination course to determine the extent to which it is equivalent to the required learning outcomes, competency outcomes, or standards in a qualification. Work Placement	<p>Work Placement is structured workplace learning that helps prepare students for the workforce. It is designed to help students better understand what they have learned by putting it into practice in the actual workplace during a specified time. Work placement can be paid or unpaid and is different from work experience. Students are given the opportunity by a work placement facility / venue to undertake tasks that relate to their course in an appropriate workplace setting. AIE acknowledges the essential role played by undertaking learning and assessment activities in an actual work environment. To achieve this, AIE arranges work placements for its students in real work environments where students can apply in practice what they have learned under the supervision of work placement facility / venue managers or supervisors.</p> <p>The decision to make work placement as part of the delivery and assessment of this qualification has been guided by the unit requirements of SITHIND004 Work effectively in hospitality service unit from the SIT60316 Advanced Diploma of Hospitality Management qualification. This unit describes the performance outcomes, skills and knowledge required to provide and coordinate hospitality service to customers. This unit integrates a range of well-developed key operational and organisational skills required by service staff in hospitality organisations providing a range of organisation products and services to multiple and diverse customers. The unit brings together the skills and knowledge covered in individual units and focuses on the way these must be applied in a hospitality setting to ensure a smooth work flow and quality customer service. It incorporates preparation, service and close-down of the work area, using a range of techniques, equipment and materials. It involves taking responsibility for own outputs, working as part of a team and taking limited responsibility for the work of others.</p> <p>AIE designed this course to include 10 weeks of work placement. Work placement will occur during last term towards the end of the course. This structured work placement will be organised by AIE for all of its students undertaking this course free of charge. AIE has a Memorandum of Understanding (MoU) with each work placement facility where students are placed. These MoUs provide a framework for the implementation of specific training and assessment activities conducted by the AIE and ensure that work placement facilities / venues are aware of the guidelines for the work placement and their responsibilities to the students that they take on.</p>																				

	<p>Requirements</p> <p>Work placement must be completed successfully by all students to gain SIT60316 Advanced Diploma of Hospitality Management qualification.</p> <p>Through work placement students are required to complete 36 complete service periods (shifts) to ensure the:</p> <ul style="list-style-type: none"> • Integration of skills and consistency of performance in different circumstances • Ability to multi-task and respond to multiple demands and requests of a number of customers with varying requirements • Ability to deal with typical issues such as workplace time constraints, late arrivals, no-shows, walk-ins and other problems or contingencies • Ability to meet, greet and interact positively with multiple and diverse customers throughout the hospitality experience • Ability to maintain the cleanliness and tidiness of work areas, including dealing with disposables and recyclables • Ability to monitor the service process and work flow, take some responsibility for others and provide technical advice and support to a team • Compliance with relevant legislative and regulatory requirements, WHS requirements • Demonstration of health and safety practices. <p>Students use Work placement log book to record their participation in work placement</p>
<p>Competency Based Training and Assessment</p>	<p>Competency Based Training is always concerned with what the participant will be able to do at the end of training. There is not so much concern with what the inputs are or how the participant got there. So long as the participant achieves the listed knowledge and skill for the competency, it does not matter who taught him or her, how or when the training takes place, what resources are used or of what the content material of the curriculum consists.</p> <p>Key features of Competency Based Training are:</p> <ul style="list-style-type: none"> • Identifying pathways; • Making competency meaningful; • Actively engaging industry or enterprise; • Target the audience; • Evaluate and judging evidence; and • Record and feedback.
<p>Trainers and Assessors</p>	<p>All trainers and assessors possess relevant vocational and training and assessment competencies and have relevant industry skills.</p>
<p>Reasonable Adjustment</p>	<p>Reasonable adjustment involves carrying the assessment process to take into account the special characteristics of the student while ensuring the validity, fairness and reliability of assessment decisions. Adjustments are considered 'reasonable' if they do not impose an unjustifiable hardship upon AIE. Adjusting the assessment process may involve varying the procedures for conducting the assessment, for example allowing additional time for the completion of tasks, extending deadlines for assignments, varying the venue, date or times for assessment. The Trainer and Assessors shall vary the evidence gathering techniques, for example, using an assignment instead of an exam, oral rather than written questioning, and short answers instead of multiple choice and varying question and response modalities.</p>
<p>Student Support Services</p>	<p>AIE has appropriate student support services available to its enrolled students so that they are adjusted to their life and study at AIE and that they are supported throughout their course of study on attendance and course progress matters to enable them to complete their course successfully.</p>
