

# MozyPro<sup>®</sup>

## Online Data Backup

## MozyPro Benefits

### Simple

Easily manage multi-user and server environments from a web-based console.

### Secure

Your data is safe with enterprise-grade encryption, world-class data centers, and the strictest security policies.

### Affordable

Keep costs low with no hardware to purchase and minimal overhead required.

## Your Business Deserves to be Protected.

*From computers to servers, BizTech & Mozy keep your data safe.*

Keeping your company data, financial records, and administrative materials safe is of utmost importance. But you probably don't have time for backup solutions that take months to set up, require thousands of dollars in hardware costs, and force you to hire someone to oversee it all.

That's why BizTech has partnered with Mozy, the trusted leader in online backup, to save your business time and money with simple, secure, and affordable backup solutions for computers and servers. You can be up and running in no time, as Mozy gives you the flexibility to deploy and manage multi-user environments from the convenience of a single online administrative console.

### Back up locally and online!

A sound backup strategy involves both a local and an offsite copy of your data. Mozy delivers both at no additional cost.

### With MozyPro software, application users can:

- ★ Select folders and files to back up
- ★ Set automatic and scheduled backups
- ★ See a history of all backups
- ★ Configure options and set bandwidth throttling
- ★ Restore files and folders
- ★ Enable local backup

# MozyPro Cloud Backup Features

## Fast

- ★ Data Seeding: Move 200 GB or more to the cloud quickly with data seeding.
- ★ File scanning: Back up millions of files effortlessly with advanced file scanning.
- ★ Incremental backups: After the initial backup, Mozy only backs up new or changed portions of files, saving bandwidth and ensuring future backups are lightning fast.

## Simple

- ★ Easy account management: Manage multiple desktops and servers from anywhere with the online Admin Console and custom reports regarding the backup health of your account.
- ★ Automatic or scheduled backups: Set MozyPro to back up automatically or to a schedule you choose.
- ★ Custom configurations: Set policies on bandwidth usage and backup speeds, create custom backup sets or define what file types should be backed up.
- ★ Reliable data restores: Browse and search your backed up files, then restore file versions up to 90 days in the past. Files may be restored on the web, via the software client, or by ordering a media restore.
- ★ Local backup: Windows users can back up locally to an external device as well as online to Mozy data centers for double protection.

## Secure

- ★ Encryption: All user data is encrypted locally with enterprise-grade encryption prior to transfer. Choose a managed encryption key or a personal key for added security.
- ★ World-class data centers: Data is stored in state-of-the-art data centers, which employ the highest security standards.
- ★ Audits and certifications: Mozy is SSAE 16 audited and ISO 27001 certified.
- ★ Automatic Data Protection: MozyPro automatically detects and backs up new and changed files.

## Flexible

- ★ Mobile app: Access your data from any iOS or Android device with the free Mozy mobile app.
- ★ SQL, Exchange, SharePoint, and network drive support: Mozy backs up all open and locked files as well as common business applications running on Windows servers.
- ★ Windows, Mac, Linux and virtual machine support: MozyPro supports Windows 10, 7, 2008, Vista, XP, and 2003 (desktop/server) and Mac OS X 10.9, 10.8, 10.7, 10.6 (desktop/server).
- ★ Open and locked file support — MozyPro backs up all open and locked files, including Outlook PST files even if the file is changing, the backup is paused, or the machine is rebooted.
