

THE 5 PILLARS OF IT SERVICES

1

DISASTER RECOVERY PLANNING

Don't wait until a major data loss to get serious about network backups & data recovery.

Keep your data safe with Mozy Online Backup & a local backup Network Attached Storage (NAS). Get 24/7/365 data recovery to give you peace of mind.

2

VIRUS & MALWARE MANAGEMENT

Secure your network computers and servers with complete cyber security and anti-virus software from Trend Micro.

Use Malware Bytes to scan for & eliminate malware to keep your computers running smoothly.

3

MICROSOFT OFFICE 365

Outlook email, plus all of the Microsoft Office productivity apps (Word, Excel, etc) offered through Microsoft's Cloud.

4

SECURITY ASSESSMENT/AUDIT

Hackers are targeting smaller businesses more & more due to 1)easier access, and 2)business owners think they are too small to be targeted.

Is your business secure from cyber attacks? Find out with a *Security Assessment*. We will examine your assets, security procedures, and externally test (attempt to hack) your systems. Then, we present our report and recommendations.

5

BIZTECH SUPPORT

Whether your business is smaller or larger, we have the IT solutions to fit your business' needs.

From Proactive Network Services & Cloud Computing, to Printer Toner & Computer Repair, we're here to help you put your *Business before Technology*.
