

# ATHLETIC ELIGIBILITY REQUIREMENTS/AGREEMENT

Student name: \_\_\_\_\_

Grade: \_\_\_\_\_

Gender: \_\_\_\_\_

## ATTENDANCE REQUIREMENTS

For a student to participate in extracurricular activities, he/she must be at school a full day of the event. Students who come to school late, on the day of the activity, should not expect to play. A student who has been suspended, during the time an extracurricular activity is being conducted, is not eligible to participate or to attend the function. If an athlete breaks this rule more than one time, they may be permanently removed from the team. Prearranged absence sheets must be filled out by each of the student's teachers and given to the coach two days prior to the event.

## ACADEMIC REQUIREMENTS

All ICSU athletes must possess a cumulative GPA of 2.0 to be free to participate in athletic events. If an athlete has a 1.8 average on a quarterly report card or on a mid-quarter progress report, they may still participate **in practices, not games**, but they will be placed on a strict contract. The contract will state the student must obtain a weekly progress report to keep track of academic progress. If the student falls below 1.8 they will be suspended from the team until the average is raised to a minimum of 1.8. If the contracted student does not do a homework assignment, they will be removed from the team indefinitely or until they can prove that they can keep up with homework assignments. If the contracted student receives a detention, they could be removed from the team. If an athlete receives an "F" on a quarterly report card or a mid-quarter progress report, they may still be eligible if they maintain a 2.0 or a 1.8 and are on contract. If an athlete receives two letter grades of "F" on a quarterly report card or a mid-quarter progress report, they will be removed from the roster, placed on academic probation, obtain a weekly progress report, and must raise their GPA to 1.8 with only one "F" or higher by the next quarterly report card or mid-quarter progress report, whichever comes first. Once this is achieved, the student may become a member of the team again. \*One "F" or more on a semester grade will cause the athlete to be ineligible for the remainder of the school year.

## ATHLETE DISCIPLINE POLICY

Athletes serving ISS or OSS suspensions may not participate in the day's athletic event. Athletes serving detentions may participate once the detention has been served.

Withdrawing from a sport in the middle of the season will result in ineligibility for the next sports season AND/OR may affect the withdrawn sport the following year. Seniors, who withdraw from a sport, will be ineligible for the next sport they participated in the previous year.

Anything that falls outside of the expressed rules will be dealt with by the administration.
