

Can I bring my pet to the Fair?

As much as we at the Fair are animal lovers (so many cute animals!) there is a danger to bringing your pet with you to enjoy the fair. With the volume of people we get plus the varied amount of animals and livestock there is no guaranteeing how your pet may react to the intense smells and presence of all of these other animals.

For your pets safety and health we cannot allow them on the premises while the fair is underway. We're sure they'll have a great time when you come home trying to identify all of the animals you saw and interacted with while you were there though!

We thank you for your consideration and appreciate your understanding!

See you at the Fair!
