POSEIDON SE7EN
PACKAGE SOLUTION OR CUSTOM CONFIGURATION

BUYER’S GUIDE
Dat. 2019.04.02
When purchasing your POSEIDON SE7EN you will have the opportunity to specify the performance of your unit from the very start!

You can either choose to purchase a recreational POSEIDON SE7EN or a technical POSEIDON SE7EN with different levels of performance. Remember that you can always choose to disable the technical function in your Poseidon Smart Battery and dive it as a normal recreational rebreather. Also, you can always upgrade your recreational rebreather to technical later, if you wish. Literally, there are no limits with the POSEIDON SE7EN.

SE7EN REC PACKAGE

- Poseidon SE7EN
- Repackable Scrubber
- Tank Belt MKVI / SE7EN
- 11 inch adapter Complete
- Battery Module - Rec 40 (Green)
- Rebreather BCD, Recreational Counter Lungs or Back Mounted Counter Lungs
- 3L Aluminium Cylinder Set 200 Bar or 3L Steel Cylinder Set 300 Bar

Upgrade to Solid State Oxygen Sensor ready electronics must be purchased separately.

POSEIDON SE7EN TEC PACKAGE

- Poseidon SE7EN
- Repackable Scrubber
- Tank Belt MKVI / SE7EN
- 11 inch adapter Complete
- Battery Module - Deep (Black)
- Counter Lung Tech Pack or Back-Mounted Counter Lung with Manual Injection Pack
- Poseidon Harness w. backplate
- Poseidon Wing WRB
- RB Handle
- Cylinder Inversion Kit
- Poseidon M28 Computer - CCR Ready
- Connecting Cable M2 1.25m / 4 ft
- 3L Steel Cylinder Set 300 Bar

Recommended add on:
M28, cable and C-pod

In a world full of compromise, we escape by visiting the one place that doesn’t: the ocean. Yet when we get there, we are forced to compromise. Not any more…

The system comprises a breathing loop (mouthpiece, hoses, counter lungs, backpack and scrubber) with associated electronics module (with Smart battery and O2 sensors), and two independent gas cylinders. One contains 100% compressed oxygen which is added to the breathing loop as the diver consumes it. The second cylinder typically contains compressed air “diluent” to compensate for compression in the breathing loop as the diver goes deeper. It’s also a backup system, containing enough oxygen for the diver to breathe directly in an emergency.

POSEIDON SE7EN has a number of advantages and unique features:

> Get closer to marine life
> Much more time underwater
> Patented safety technology
> Proven performance
> Expandable system
> Recreational or 100 m technical rebreather
> Comfortable mouth-piece with patented BOV
> Dive Management System
> Plug and play with Dive-by-Wire™
> Bluetooth connectivity
> Automatic start-up testing procedure

The POSEIDON SE7EN is The Next Generation Rebreather.

ART. NO:

6012 - 010, POSEIDON SE7EN EU version
- incl. Cylinder Set, cover, handle and battery charger

6012 - 011, POSEIDON SE7EN US version
- excl. Cylinder Set, incl. cover, handle and battery charger

BUYER’S GUIDE:

- EMEA units will have a M26 threading on their oxygen first stage.
- EMEA rebreathers need to be sold with cylinders according to EU law.
A simple battery change will allow you to upgrade your POSEIDON SE7EN to go even deeper. Having the option to upgrade your POSEIDON SE7EN to perform decompression stops by a simple exchange of batteries makes the SE7EN the ideal machine for you to grow from a recreational rebreather diver to a technical rebreather diver. There is no longer a need to do big leaps in your experience with your rebreather that could make you uncomfortable.

The Smart battery is also your personal dive memory, as it saves your dive logs and the remaining nitrogen in your tissue. It also contains a buddy light as well as a speaker for all warnings.

---

**RECHARGEABLE BATTERY OPTIONS**

**RECHARGEABLE BATTERY OPTIONS**

**Maximum depth:**

40 meters / 131 feet.

This is a pure recreational battery which will allow you to dive with air in your diluent cylinder.

No decompression is allowed in this model.

It will allow you to have a dive time of 3 hours on one single dive with a maximum depth of 40 meters / 131 feet.

**ART. NO:** 6011 - 005

---

**TECHNOLOGICAL FEATURES**

**Maximum depth:**

60 meters / 196 feet.

This is a technical battery for decompression and trimix diving down to 60 m. You can simply switch the decompression and trimix function on and off in your PC.

Set your trimix blend in the PC config program. You can set the oxygen content down to 16%.

This makes it easy to switch back and forth between recreational and technical diving.

**ART. NO:** 6011 - 029

---

**DEEP BATTERY OPTIONS**

**CE tested depth:**

100 meters / 328 feet.

This is a no-limit deep diving battery, CE-tested to 100 m / 328 feet. You can simply switch the decompression and trimix function on and off in your PC.

Set your trimix blend in the PC config program. You can set the oxygen content down to 1%.

This makes it easy to switch back and forth between recreational and technical diving.

**ART. NO:** 6011 - 036

---

**MATERIAL:** Water sealed battery pack in robust plastic.

**TECHNICAL FEATURES:** The battery will upgrade your unit to the specific depth limit. The deeper version will also let you specify the trimix used through the PC config program.
The LCD Display is the traditional numeric display for the Poseidon SE7EN.

- Large numeric display with good visibility
- Adjustable backlight
- Durable gel-filled construction.

**Art. No.:**
0005 - 045, Display

---

The M28 dive computer is the preferred choice of computer for the Poseidon SE7EN rebreather.

- Powerful graphics thanks to a class leading 2.8” TFT LCD Color Display
- Highly intuitive user interface with two button control
- Enhanced SE7EN/MKVI functionality with the M28’s Rebreather Management System
- Dive-By-Wire™ enables you to make changes to set-points and gases during dive. Integration is possible with Poseidon Pod Systems, HUD and HP Sensors
- Dual Deco Algorithm (DCAP and Bühmann ZHL16C with gradient factors)
- Real-time GPS Surface Positioning and maps
- Depth rated to 200M/656 ft

**Art. No.:**
0600 - 200, Poseidon M28 Computer.
Incl. Firmware CCR.
Carrying case, Dust bag, Charging cable and Bungee cord
The light weight 3.0 L aluminum cylinders, keeps your POSEIDON SE7EN light.

With aluminum cylinders your POSEIDON SE7EN is easier to handle and travel with.

Cylinders come equipped with tank valves.

**EU CYLINDER SPECIFICATIONS:**
- Cylinder capacity: 3.0 L
- Diameter: 117 mm / 4.61 Inch
- Length: 440 mm / 17.32 Inch
- Weight: 3.60 kg / 7.9 lb (US)
- Working Pressure Diluent: 200 Bar / 2,900 PSI
- Working Pressure Oxygen: 135 Bar / 2,000 PSI
- Test Pressure: 312 Bar / 4,525 PSI
- Thread Specification: 97/23/EC

**ART. NO:**
- 0405 - 000, 3L Aluminium Cylinder Set - EU
- 0405 - 001, 3L Aluminium Cylinder Set - AUS
- 0405 - 002, 3L Aluminium Cylinder Set - A/P

The 3.0 l steel cylinders allows you to bring more diluent and more weight in the cylinders lowering the amount of lead weights needed.

When diving in colder waters and you need to wear a dry suit with undergarments you can preferably use the 3.0 L Steel Cylinders. They will decrease the amount of weight that you will need to add to your weight belt as they are both heavier and smaller than the 3.0 L aluminum cylinders.

If you already have diluent- and oxygen cylinders to attach to your POSEIDON SE7EN then you can purchase your unit without these. This option is not possible in EU as law prohibits it.

**BUYER’S GUIDE:**
- EMEA - Can’t sell the unit without cylinders according to EU law
- Grey aluminum cylinders are included in article number 6012 - 010
- Americas - Black aluminum cylinders, black steel cylinders or No Cylinders
- Asia Pacific - Silver aluminum cylinders or No Cylinders
The rebreather BCD and the Poseidon Rebreather Wing & Harness have been designed to sustain a good buoyancy and fit with your POSEIDON SE7EN. Therefore they are the preferable choice of buoyancy device to your POSEIDON SE7EN.

Are you new to rebreather diving or just prefer an BCD over a wing? Then the Rebreather BCD is the perfect buoyancy compensation device for your Poseidon SE7EN experience. A durable and high performance BCD with integrated lungs, which will make you feel even more connected to your machine and the breathing loop. The four D-rings will make it easy to attach the bailout tank or anything else you would like to take along. The integrated exchangeable lungs can easily be taken out and cleaned and attached again. With the individual patch system you will have the possibility to personalize your Rebreather BCD.

**COLOR:** Blue, Red, Black, Grey

**SIZES:** XS, S, M, L, XL

**MATERIAL:** Premium black version in Nylon 1680. 3 color versions in red, blue and grey made in Cordura 1000. YKK Waterproof Zippers. Inflator with stainless steel mechanism.

---

The recreational and technical counter lungs is made for the Poseidon wing/harness system, but will fit any brand on the market.

If you choose a different wing and harness system, the Counter Lungs will be compatible.

The inner bladder of the lungs contains the gas you breathe through the loop. The outer protection for the inner bladder is made with a reinforced tough nylon material. The lungs are fitted with a big D-ring in the bottom of each lung, where you can attach bailout tanks, lights, SMBs or anything else that may come in handy during your dive. The inhalation counter lung has a Velcro strap fitted on the side where you can attach your inflator hose.

The exhalation lung has an Over Pressure Valve fitted on the lower part of the lung.

**Standard Counter Lung capacity 6.2 liters.**

**ART. NO:** 6011 - 049

**Large Counter Lung capacity 8.2 liters.**

**ART. NO:** 6011 - 050

---

For divers preferring the back mounted set-up of their rebreather wing/harness.

Made for the Poseidon Rebreather Wing/Harness the Back Mounted Counter Lungs have the same material and specifications as the technical counter lungs.

Over-the-Shoulder or Back Mounted Counter lungs is a matter of personal preference.

Back Mounted Counter Lung capacity is 8.2 liters.

**ART. NO:** 6011 - 066

---

**ART. NO:** 0337 - XXX
The four tank band straps that can be fitted on to the SE7EN are the same type of tank band that you see on standard BCDs, with the exception. The dimension is smaller to fit the POSEIDON SE7EN’s smaller brackets and tanks. The buckle is made out of hard plastic. They will make it easy to attach your diluent and oxygen cylinders on your SE7EN.

**COLOR:** Black

**ART. NO:** 0000 - 116 x 4

The tank straps with the stylish stainless steel buckles will make the attachment of your diluent and oxygen tanks a much easier operation. The Tank Strap & Buckle makes the adjustment of the strap a one time operation. After that it will fit every time. The stainless steel buckles has the Poseidon logo beautifully engraved onto them.

**COLOR:** Black

**MATERIAL:** Stainless Steel

**ART. NO:** 0415 - 001, (Pair, L & R)

---

The Cylinder Quick Mount Release (QMR) attaches your cylinders even quicker and with a perfect fit every time, just as you want them to be.

The QMRs are made out of steel and will snap into place on the side of your scrubber canister house. They will not rattle once in place. The stainless steel rings with the bracket will be permanently mounted the cylinders.

**ART. NO:** 0415 - 002

---

**BUYER’S GUIDE:**

- Tank Strap & Buckle need to be attached on the upper and the middle attachment points on the canister housing. As the straps won’t be able to attach the SE7EN cover if they attach them on the upper and the lower attachment points.
**REQUIRED OPTIONS**

**D2 SENSOR**

Galvanic, analog oxygen sensor developed for the Poseidon rebreathers.

**ART. NO:** 6010-206

**SOLID STATE D2 SENSOR**

Optical, digital oxygen sensor developed for the Poseidon rebreathers.

- Absolute optical oxygen measurement
- Digital communication interface
- Factory calibrated, no need for user calibration at each startup
- Fast and accurate
- Low power consumption
- Electronics hermetically sealed from the sensing environment
- External „DuraClik“ Molex connector
- Designed for highest mechanical reliability
- EMC tested - ESD protected interface
- Unique electronic ID numbers for sensor traceability

**ART. NO:** 6011-063
 Poseidon highly recommends you to purchase a QMR or a 11 inch adapter as we can’t guarantee that you will be able to attach your buoyancy device to your POSEIDON SE7EN otherwise.

Used on your POSEIDON SE7EN for an easier assembly and disassembly.

The Quick Mount Release adapter will make it easier for you to connect and disconnect your BCD/Wing to the POSEIDON SE7EN.

The QMR uses the standard 11-inch system.

It’s the best way to connect the SE7EN and the Rebreather BCD.  

**ART. NO:** 0005 -100

Get your POSEIDON SE7EN canister in place without straps.

If you are not planning to assemble and disassemble the BCD or Wing from your POSEIDON SE7EN frequently, the 11-inch adapter is a good low-cost solution connecting them together.

It will make your SE7EN come even closer to your back then the QMR.

**ART. NO:** 0000 - 468

---

**BUYER’S GUIDE:**

- QMRs are preferable if you need to switch between many different buoyancy compensators.
- 11 inch adapters are sturdy and is a great choice if you are the only one diver on the unit.
The Jetstream Mk3 is an updated version of the classic Jetstream regulator. We have now connected a Jetstream second stage with an Xstream first stage, thus creating an even better version of this high performing regulator.

With its unique style and rugged reliability, the Jetstream is ideal for beginners and experienced divers alike. You will receive an octopus that will have the same standard of quality as your POSEIDON SE7EN.

Effortless breathing at any depth. The first stage incorporates a safety valve that allows you to continue to breathe normally from the second stage, even in the unlikely event of abnormally high pressure air in the first stage.

**ART. NO:** 0100 - 006

---

**JETSTREAM OCTOPUS**

No need for bungees and straps!
Place your bailout cylinder inside of the Wingman, zip up and you are good to go.

The tough ballistic Nylon 1680 protects your cylinder and military mesh makes sure the case is drained from water once exiting the water. Place your regulator inside the strap on the side of the Wingman, which is equipped with Octupus® Velcro. Octupus® Velcro is a new type of velcro that will become stronger once in contact with water.

**COLOR:** Black
**SIZEs:** 5 L, 7 L, 40 cuf, 80 cuf
**MATERIAL:** Durable PVC housing with metal mechanism and rubber parts.

---

**JETSTREAM REGULATOR**

The Jetstream Mk3 is an updated version of the classic Jetstream.

The Jetstream Mk3 is an updated version of the classic Jetstream regulator. We have now connected a Jetstream second stage with an Xstream first stage, thus creating an even better version of this high performing regulator. With its unique style, multiple colours and rugged reliability, the Jetstream is ideal for beginners and experienced divers alike. Effortless breathing at any depth.

**COLOR:** Blue, Red, Black, Grey
**SIZEs:** 5 L, 7 L, 40 cuf, 80 cuf
**MATERIAL:** Ballistic Nylon 1680, YKK Waterproof Zipper, Military Mesh, Octupus Velcro.

---

**BAILOUT KIT**

**ART. NO:**
- 0650 - 031, Side Sling Case 7 L / 55 cf

---

**BUYER’S GUIDE:**

- Prior to ordering please confirm with your instructor that you have the right alternative air source according to the specific training organization you will be trained in.
- You can not use your own octopus with the POSEIDON SE7EN as we can’t guarantee that it will function properly.
Cylinder inversion kit for configuring your rebreather with the valves facing down.

Consists of:
- 2 HP hoses
- 3 LP hoses
- LP Manifold

Consists of:
- Diluent valve
- O2 valve
- 2 LP hoses

Manual Injection Pack for Back Mounted Counter Lungs,
2 hose 110 cm

Consists of:
- Diluent valve
- O2 valve
- 2 LP hoses

ART. NO.: 6011-054

Cylinder Inversion Kit

MANUAL INJECTION PACK

MANUAL INJECTION PACK BMCL

ART. NO.: 6011-051

ART. NO.: 6011-048
The Rebreather Wing & Rebreather Backplate is tailored to fit the POSEIDON SE7EN.

The Poseidon Rebreather Wing & Harness and the Rebreather BCD have been design to sustain a good buoyancy and fit with your SE7EN. This makes them the preferable choice of buoyancy device to your SE7EN.

Made in Ballistic Nylon with an integrated deflate system and custom made back plate. The webbing and buckle system is adapted from the Poseidon platform. The black aluminum backplate is covered in Nylon for protection and a higher comfort. The four D-rings will make it easy to attach your bailout tank/-s or any other equipment you would like to take along on your dive.

**COLOR:** Black

**MATERIAL:**
Nylon 1680, Nylon covered black aluminum backplate

**TECHNICAL FEATURES:**
- Self retracting bladder
- Three dump valves
- Nylon covered black aluminum backplate
- Maximum buoyancy is 150 N which is reached within 5-8 seconds
- Dry weight 1.8 kg

**ART. NO:**
0336 - 164, Harness w. Backplate
0338 - 060, Rebreather Wing

Made in the Poseidon One design for beginners and for more experienced divers, the One Wing & Harness gives you a good buoyancy and a great look.

The One Wing is a sportwing with excellent volume increase and superior bladder deflation capabilities.

When deflated, the ClamRetract system helps to reduce size and drag to the minimum. Three dump valves and an inflator with a stainless steel mechanism ensure inflation and deflation is always controlled and safe; and the shape of the bladder compensates for the weight of the tank when submerged and gives you freedom to move in any direction. The narrow air passage behind the neck is designed not to impede head movement or foul regulators and hoses when inflated.

The One Wing is made for equipment with a negative weight in water that does not exceed 19 kg (41.6 lbs) and has a lifting capacity of 225 N. It comes with a double, nonflex tankband tank attachment system and can also be equipped with integrated weight pockets, accessory pockets, metal backplate, pinbolt kit and D-rings.

**COLOR:**
- Red,
- Black.

**ART. NO:**
0336 - XXX, One Harness
0335 - XXX, One Wing
RECOMMENDED OPTIONAL EXTRAS

RB HANDLE
RB Handle designed to carry your POSEIDON rebreather readily.
Easy assembly in combination with QMR adapter or 11 inch adapter.
ART. NO: 0005 - 229

REPACKABLE SCRUBBER CARTRIDGE
A repackable scrubber cartridge for the Poseidon rebreathers.
TESTED: The scrubber is tested in accordance with the EN14143:2013 with the Poseidon SE7EN rebreather. Scrubber material endurance depending on temperature and metabolic oxygen consumption. Scrubber endurance at 40m depth, 4° Celsius, CO2 production of 1.6l/min STPD, 40 RMV (2 liter tidal volume), using the Poseidon user repackable scrubber with Sofnolime 797 grade (1-2.5mm). Duration measured with the above mentioned conditions until the PPCO2 of the inhaled gas reaches 5mbar; 130 minutes.
ART. NO: 6011 - 069

REBREATHER DISPLAY GAUNTLET
The gauntlet will help you keep track of your display, by having it placed on top of your hand.
The gauntlet also protects your display from being scratched or damaged. With a special type of velcro, Octopus Velcro, the display will stick even harder to your hand once in contact with the water.
COLOR: Black
SIZES: Small and Large
MATERIAL: Ballistic Nylon 1680, YKK Waterproof Zipper, Octopus Velcro.
ART. NO:
0605 - 001, Small
0605 - 002, Large

O2 SENSOR (MOLEx)
Oxygen sensors made for the POSEIDON SE7EN.
Oxygen sensors are consumables and should be changed when your POSEIDON SE7EN has a hard time reading the correct O2 levels in your loop or they have been in use for over 1 year.
You may need to change your O2 sensors if the following occurs:
> Recurrent C1 alarms when diving
> Hyperoxic linearity test failure
> Recurrent T53 failure
ART. NO: 6010 - 206

RB HANDLE
REPACKABLE SCRUBBER CARTRIDGE
REBREATHER DISPLAY GAUNTLET
O2 SENSOR (MOLEx)
The Poseidon C-POD uses an integrated CAN bus to directly connect to the SE7EN or M28 network to monitor and log the required parameters.

Typical adaptations of the Poseidon C-POD with a M28 includes:

- Monitor loop PO2 individually or as back up.
- Deploy the Poseidon mouthpiece and HUD system.
- Deliver life-saving information on PO2, loop status and calculated decompression.

**ART. NO:** 6011-068

Connecting cable M2, 1.25 m/4 ft.

Used for expanding the Dive-by-WireTM system, for example between the Poseidon SE7EN and the M28.

**ART. NO:** 0000 - 690

Protect your M28 with a rubber cover.

Available in two colors, black and red.

- 0132-000, Standard CC hose = 346 mm (13.62 inch)
- 0135-000, Shorter CC hose = 286 mm (11.26 inch)
- 0135-001, Longer CC hose = 396 mm (15.59 inch)

---

Rubberised multitool with most commonly used tools for diving and your POSEIDON SE7EN rebreather.

**COLOR:** Black

**ART. NO:** 0655 - 003

---

**BUYER’S GUIDE:**
- Attach on your cylinder bands to get you in perfect trim.

**BUYER’S GUIDE:**
- Customize your loop so it fits you perfectly!
If you would like to use a third cell during your dives to monitor the loop you will now have that option with Poseidon's Third Cell Holder.

The holder can be placed along the loop and attached as it has the same connections.

Which cell you would like to place in this holder is up to you. You will also be able to use whichever computer you would like to attach your third cell to.

ART. NO: 6011-052

A hose that is both robust and high quality.

The Miflex Polyurethane hose assures diluent air is transported to the POSEIDON SE7EN mouthpiece. This hose is of the highest caliber and is an excellent choice for use with both the POSEIDON SE7EN and Poseidon Xstream and Jetstream regulators.

ART. NO: 0130-004
