POSEIDON SOLID STATE O₂ SENSOR

Safety features

- Electronics hermetically sealed from the sensing environment by a transparent window
- Designed for for highest mechanical reliability
- EMC tested - ESD protected interface
- External "DuraClik" Molex connector designed for highest reliability
- Digital communication interface
- Unique electronic ID numbers for sensor traceability

(3) and (4) must not come into contact with condensing water.

Features

- Absolute oxygen measurement
- Factory calibrated, no need for user calibration
- Fast and accurate
- Low power consumption
- Can be used with the M28 and CPOD system
