

Getting your money faster through PayPal guide:

In some cases, the PayPal payment could not be available immediately to the seller (the Fonzee – the worker). In some occasions, PayPal delays the availability of these payments up to 7 or 21 days to assure that the Buyer receives the service and is satisfied.

To receive the payment 3 days after the service is rendered, the Seller would have to update the status to **Order Processed/Service Rendered** on their PayPal transaction. Once this status is saved and updated by the Seller, PayPal system will automatically release the funds to the seller.

These are the steps the Seller has follow to claim a payment:

Step 1) Log into your PayPal account.

Step 2) Click on “**ON HOLD Payment Received**”

Below the navigation bar, the user is greeted with "Hi again, John!" and a "Get the most out of PayPal" button. There are three main action buttons: "Pay or send money", "Get the PayPal app", and "Take more time to pay".

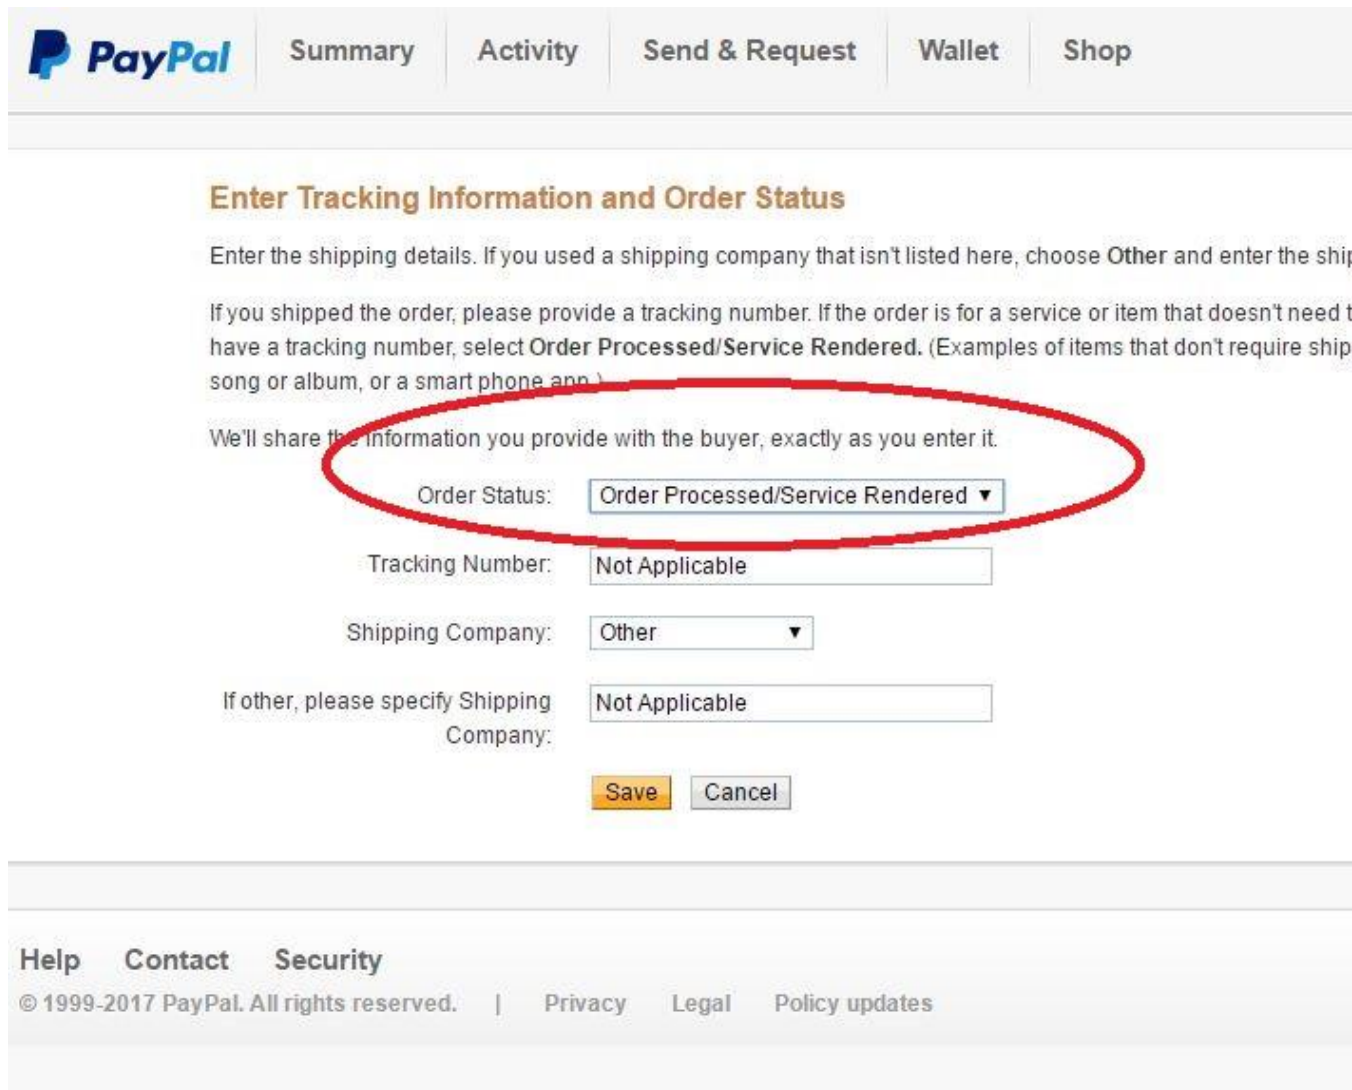

The main content area is divided into several sections:

- PayPal balance:** Shows "No balance needed to shop or send money" and a balance of "\$69.31 ON HOLD".
- Pending:** A red circle highlights a payment from "Fonzees" dated "MAY 08" for "+ \$20.09". The status is "ON HOLD Payment Received". Below this, there are links for "Print shipping label" and "Add tracking info".
- Completed:** Shows a payment from "Fonzees" dated "MAY 06" for "- \$50.00" with the status "Preapproved Payment".

Other sections include "Banks and cards" with a "Link a bank or card" button, and "Selling tools" with links for "Manage invoices", "MultiOrder shipping", and "Seller preferences".

Step 3) Click on “Details” of the transaction.

Step 4) Select “Order Processed/Service Rendered” from the “Order Status” list, then click on “Save”.
