

A little bit of help with packing

On board we have just about everything you'll need for whatever your trip will bring. Your stay is fully catered (asides from alcohol) fishing, kayaking, paddle boarding and dive gear is available onboard.

We'll also share.. sunscreen, insect repellent, torches, bedding and towels

So you need to bring..

- Clothes for four seasons regardless of time of year
(not the whole wardrobe as we do have a washing machine/dryer)
- Comfortable lounging gear
(i.e. slippers or thick socks to go with whatever you like to relax in)
- Good footwear
(ideally waterproof hiking boots)
- Raincoat
- Camera, charger and spare memory card
(you'll appreciate a backup)
- Toiletries
- Swimming costumes
(needed for all four seasons thanks to the hot tub on the top deck)
- Smiles
- Any other toys you want to play with
(Spear gun, drone, rifle, underwater camera, sketch book, bow..)
- Anything else that generally makes you happy in life
(Special chocolate, your own music, wine, a good book, your partner or a good mate...

When flying in or out there is a weight limit of 120kg per person INCLUDING luggage.

(So there is no need or space for the kitchen sink.)

Please pack in soft bags rather than hard travel cases.

A note on alcohol.. Asides from wine and spirits all beer brought onboard must be in cans due to weight and storage reasons.

Please don't hesitate to get in touch with us if you have any special requirements and questions or simply want to chat about your adventure.
