Four Seasons Resort Unveils Renovated Villas in Bali

This 23-year-old Balinese resort revealed extensive upgrades to its premier and deluxe villas—all of which are now more spacious than before. Indonesian design firm Jaya International brought stylish luxury

to the renovation via woven accents on warm teak furniture, oversized standalone soaking tubs, and plenty of floor-to-ceiling windows looking out to the sea. Plus, some of its trademark plunge pools (which come with every villa) have also been enlarged and outfitted with pretty thatch-roof bales—a new perch from which to admire the prime (and private) beach location. *Villas, from \$1,050; Kawasan Bukit Permai, Jimbaran; 62/361-701-010; fourseasons.com.*
