**Jeff Poor** – Complaint concerning receiving notice last week from the water department that he owes the Town for an 11 year old water bill. He has only owned the property for two (2) years. He does not feel he should have to owe for a previous owners water usage. Mr. Poor explains the issue was with the older water meter not giving a valid reading. Mr. Poor explained the bill is due today or there will be an additional \$150.00 added penalty to the bill. Attorney Caraccioli explained the penalty could be waived. The problem has been identified and until a solution can be made the Town would be able to waive the penalty. The Town Board will discuss the issue and contact Mr. Poor with their solution at a later date.

**Theresa Galletta-** Mrs. Galletta explained at the sale of the house the attorney would have known if there was unpaid water. She then asked the Board why would the malfunction of the water meter reader be the resident's problem? Water director Jody Gigon explained how the water meter readers work.

**Resolution #18-119**

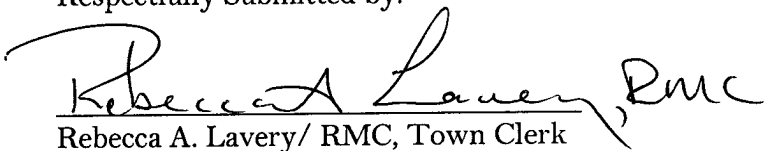

**Report-** Motion made by Councilor Kennedy to close the Public Hearing for Local Law #1 of 2018. Seconded by Councilor Lagoe.
